text:

 Advantages of using React:

```
<ul>
  <li>easy to know how a component is rendered, you just look at the render function.</li>
  <li>JSX makes it easy to read the code of your components. It is also really easy to see the layout, or how components are plugged/combined with each other.</li>
  <li>you can render React on the server-side.</li>
  <li>it is easy to test, and you can also integrate some tools like jest.</li>
  <li>it ensures readability and makes maintainability easier.</li>
  <li>you can use React with any framework (Backbone.js, Angular.js) as it is only a view layer.</li>
</ul>
```
